### CAREER OBJECTIVE:

Aspiring to secure a challenging position as a Front-End Developer in a growth-oriented organization where I can leverage my **2.8+** years of experience in web development using **HTML, CSS, JavaScript, React.js**, and **Next.js**. I am to contribute to building user-friendly and responsive web applications while continuously enhancing my technical skills and growing alongside a collaborative and innovative team.

### PROFESSIONAL EXPERIENCE:

Senior Software Engineer  
Agiliad Technologies Pvt. Ltd., Pune

 July 2022

- Engineered and maintained scalable web applications using React.js, JavaScript, HTML, and CSS.
- Actively contributed to Agile processes—sprint planning, stand-ups, and retrospectives.

### TECHNICAL SKILLS

- **Languages & Tools:** HTML, CSS, JavaScript
- **Frameworks & Libraries:** React.js, Next.js, Material-UI, Styled Components
- **Development Practices:** Agile (Scrum), Version Control (Git), Responsive Design
- **Soft Skills:** Team Collaboration, Problem-Solving, Attention to Detail

### PROJECT

 **Project:** Responsive Web Application

**Role:** Front-End Developer

**Responsibilities:**

- Designed and implemented dynamic UI components like search bars, notification panels, login/signup forms, and favorite card features.
- Built the core layout of the application including header, body, and navigation, ensuring consistent UX.
- Integrated React hooks (useState, useEffect) to manage state and deliver interactive functionality.
- Collaborated with UI/UX designers to translate wireframes into responsive, pixel-perfect front-end components.
- Ensured cross-browser compatibility and mobile responsiveness using Styled Components and Material-UI.
- Contributed to backend development by writing unit test cases using xUnit in C# to ensure code reliability and 100% test coverage for specific modules.
- Engaged in debugging, refactoring, and reviewing backend logic to support overall application performance.
